23 November 1965

MEMORANDUM FOR: Mr. Duckett

Dear Carl:

I sat in with the Board of Editors of the "Studies in Intelligence" this past week end in the absence of Don Chamberlain. I found much to my distress that your proposed paper, "Windfall in Cuba," had been dropped from the list of prospects. I revived their interest and optimism in its conclusion and would urge you most strongly to finish it up and submit it. It is an important topic, and you saw it firsthand. For you personally, it would be a good thing to have at least one article in the "Studies" for the long pull.

ALBERT D. WHEELON
Deputy Director
for
Science and Technology
